

Disability Health Network highlights 2023

Access for all

4

Easy Read booklets developed in partnership with Developmental Disability WA to support access to information (see over page for QR codes to link to resources)

Supporting the Consortium responsible for delivering the National Centre of Excellence in Intellectual Disability Health

Disability Health Profile Form endorsed for state-wide badging for use by people with disability to capture key disability-related information to improve communication across the health and disability interface

Celebrating success

Hospital Stay Guidelines shortlisted for an IPAA WA Achievement Award 2023 under *Best Practice in Health and Wellbeing*

Co-Leads presented the Hospital Stay Guidelines to the People with Disability WA conference in December 2022, and in 2023 to the Carer Participation in Health Forum, WA Country Health Service Clinical Senate, and the National Allied Health Conference

Posters on the Hospital Stay guidelines presented at the Health Round Table "Reimagining the Complex Patient Journey" workshop in Queensland

Bringing partners together

120

Stakeholders, including people with disability, engaged to propose actions to implement the Hospital Stay Guidelines

Supported the establishment of the Staff with Disability and Allies Network across WA Health

Brought together the Disability Access and Inclusion Plan Chairs and Champions to collaborate and share initiatives

Partnering with Child and Adolescent Health Service to celebrate International Day of People with Disability 2023

Working towards equity

Collaborating across the health and community sectors to work towards addressing the Royal Commission recommendations in health as a priority for the Disability Health Network 2024 strategic plan

Collaborating across the WA health system to support the delivery of Sustainable Health Review recommendations 4 and 15

"Disability is everyone's business"
