

HEALTH NETWORKS UNIT - PURPOSE & FUNCTION

CLINICAL LEADERSHIP AND REFORM VISION

To optimise the health and wellbeing of Western Australians through collaboration and evidence translation.

OUR PRINCIPLES

Provide an agile approach to the needs of the system, service and community.

Reduce inequity for population groups.

Develop a culture of cross-system leadership and engagement.

Drive positive change through integration of system, service and community.

Influence system-wide reform through engagement.

Build strong connections and capacity across the system, service and community.

OUR PURPOSE

To create an environment for collective participation by identifying, synthesising and integrating system wide improvements for all Western Australians.

Facilitation and consumer engagement.

System navigation and networking.

OUR EXPERTISE

Leadership and capacity building.

Analysis, research and evaluation.

Survey design and consultation.

Policy development through engagement.
